Economical benchtop test stand

Quantrol™  
by DILLON

precisely

> Above: shown with drill attachment and Basic Force Gauge

> Right: shown with Compact Force Gauge

- > The most economical test stand available
- > Many bolt-on accessories for limitless versatility
- > Throat and base plate extensions for bulky samples

## Valuetest

The Valuetest benchtop test stand offers outstanding value for its extremely tiny price tag. The 500N/110-lbf workhorse has an impressive 15-inch opening. It handles a wide selection of force gauges without special adapter plates. It is backed by the best warranty in the business; two full years on parts and labor.

Many bolt-on accessories make the Valuetest into an extremely versatile tool.

- > Drill-attachment kit motorizes the stand
- > Horizontal leg kit improves ergonomics while seated
- > Base and throat opening extensions allow testing of bulkier samples

A full range of instrumentation, grips and accessories are available to complete your testing solution.

Quantrol's experienced distributors thoroughly understand testing, and can suggest the best combination of equipment for any testing application. They also offer superb maintenance and repair service.

Valuetest is the best choice for budget-minded testing. Ask your Quantrol distributor about it today!
